

BANKER WALSH PUT ON TRIAL

Charged With Defalcation of Fifteen Million Dollars

AND WRECKING INSTITUTIONS

Eminent Counsel of Accused
and Fees Will Aggregate
\$250,000

Many Prominent Men Will Be Witnesses and Also Woman Under Arrest as His Spy.

Chicago, Nov. 12.—John R. Walsh, the railroad magnate and millionaire, intimate of Senators, Congressmen and Kings of finance, faced a federal court today to answer charges of defalcation of \$15,000,000. Because of his former associations with the banker, Judge Landis refused to hear the case and Judge Anderson of Indianapolis presided. Walsh has an array of counsel, whose fees are said to aggregate \$250,000. John S. Miller, the Standard Oil lawyer, Judge Hynes and other legal stars are among them.

Among the witnesses ordered to appear for the government are the directors and officers of the defunct Chicago National Bank, the Home Savings bank, and the Equitable Trust company, the three institutions wrecked by Walsh's methods. National Bank Examiner Morley, Etta McLean, the federal attorney's former stenographer, who was arrested for the theft of papers from his office, and "dummy" signers of notes, whose identity is concealed.

United States Attorney Sims declares he has discovered the existence of a Walsh spy force, larger than the entire police department of a small city. Walsh is under two indictments of more than 150 counts for alleged looting of banks. The funds were used, it is charged, for building his railroads in southern Indiana.

Etta L. McLean, the stenographer in the office of District Attorney Edwin W. Sims, until she was discovered stealing the letters bearing on the prosecution of Walsh, was released from custody Monday afternoon on her own recognizance.

The young woman's release followed a conference lasting nearly an hour, in which she and District Attorney Sims, together with Secret Service Operative Lawrence Richey, took part.

Miss McLean immediately prepared to leave Chicago and return to her home in Boston, Mass., until she receive word from the district attorney that she is wanted in Chicago.

Thus far however, there have been no additions to the list of five known killed and four injured in the fire early today. The dead are all employees. Though driven from the hotel in panic none of the 150 guests was injured.

BOYS' MISCHIEF CAUSES DEATH OF OLD WORKMAN

Chicago, Nov. 12.—A band of mischievous youths is today hiding in fear of arrest for causing the death last night of an old workman who was hobbling along the streets on his way home. Having become tired of their games, the youngsters thought it would be lots of fun to trip some pedestrian. They carried a plank to the sidewalk resting one end of it on the curb and the other on a low picket fence just as L. S. Briggs, 70 years old was approaching.

The old man stumbled over it, his head striking a brick. Neighbors found him unconscious and he died before a physician arrived.

WRONG LEVER SENT "FLYER" INTO FREIGHT

Pittsburg, Nov. 12.—One hundred passengers narrowly escaped death, four were seriously injured and the Chicago-New York 18-hour special train leaving Pittsburg at 12:54 was wrecked in a head-on collision with a stationary freight train due, the officials say, to the mistake of the operator at C-P tower near Larimer station, 20 miles east of this city early this morning. The operator moved the wrong lever of the inter-locking switch and signal system and the fast flyer dashed into the caboose of the freight train, disabling and derailing the engine and converting the freight cars into a mass of broken wood. Traffic was delayed for several hours. The baggage car of the passenger train was partially wrecked.

FOOTBALL HERO TO WED DAUGHTER OF A STATESMAN

Trenton, Tenn., Nov. 12.—A courtship which started on the side lines and between halves of a football game several seasons ago, when Hillsman Taylor, star tackle on the Vanderbilt University eleven for several years, was introduced to Miss Katherine Baird Taylor, youngest daughter of United States Senator Robert L. Taylor, will end in January with their marriage, announcement being made by the parents of the bride. The wedding will take place in Washington, D. C., at the residence of the bride's parents. Since his college days Mr. Taylor has practiced law in Trenton. Although bearing the same name the bride and groom are not related.

EXTRAORDINARY PRECAUTIONS TO GUARD KAISER

London, Nov. 12.—The Kaiser will lunch tomorrow with the Lord Mayor at Guild Hall. Elaborate preparations are being made to prevent any attempt on his life while he is in London. All known anarchists are watched, while the track over which his train will run from Windsor to London is being patrolled by troops. While in the city the Kaiser will be guarded by mounted life guards, and troops will line the streets. The unusual precautions indicate that the authorities have knowledge of a plot on the Kaiser's life.

PARDON GIVEN CALEB POWERS

By W. S. Taylor When Governor of Kentucky, Offered as a Plea in Bar—Attorneys Consult.

Georgetown, Nov. 12.—When Caleb Powers' trial was called today, sixty witnesses were absent, but Commonwealth's Attorney Franklin, said the state was ready for trial and would get the witnesses. The court asked if the defense was ready, and Attorney Owens presented a pardon given Powers by W. S. Taylor, when governor, as a plea in bar. He said the matter should be settled at once. Attorneys for the state then went into consultation.

Attorneys for the state objected to the court considering the question of Taylor's pardon of Powers, saying that it had already been passed upon by the court of appeals. The judge overruled the motion, but told the defense they could make an avowal, supported by the testimony of the witnesses. Judge Morris said he would allow proof for the avowal and adjourned court until 2 o'clock to give the defense time to prepare their plans.

L. H. INSCHO PASSED AWAY

After Heroic Struggle
With Implacable
Foe, Cancer

WAS A GALLANT SOLDIER

And Received a Medal from
Congress for Bravery
in Battle

Was Prominent and Active in
Church, Lodge and Political
Circles of the City.

Captain L. H. Inscho, one of the best known and most highly esteemed men in Licking county, died at his home, 309 West Church street, Tuesday afternoon about 1:15 o'clock, of cancer of the face, with which he has been afflicted for a number of years. For a long time he conducted a grocery store in this city. For several years he was superintendent of the State Encampment Grounds, one miles west of Newark and was well known by National Guardsmen all over Ohio. He also occupied the position of township trustee and served in other positions of responsibility and trust. He is survived by his widow and one daughter, Mrs. F. E. Tomlinson.

At this writing no arrangements have been made for the funeral, but it will be under the auspices of Lemer Post, No. 71, G. A. R. of which he had been a leading member for many years.

Leonidas H. Inscho was the oldest of the family of Moses Inscho and Ada Preston Inscho, and was born in Chatham, Licking county, February 20, 1840. In the common schools of Chatham, Mr. Inscho was a student at infrequent intervals, much of his time being devoted to work. In June, 1861, he enlisted in Company E, Twelfth Ohio Infantry as a private and held the various ranks of non-commissioned officers; he was commissioned second lieutenant, which rank he held at the time of his discharge, in August, 1865. His original period of service was three years, but at the expiration of that time he again enlisted, and the Twelfth being consolidated with the Twenty-third, Col. R. B. Hayes' regiment, he became second lieutenant of Company A.

Among the engagements in which he participated were the following: Kanawha River, Galley Bridge, Carnifex Ferry, Cotton Mountain, Princeton, Second Battle of Bull Run, South Mountain, Antietam, Winchester, Hallowtown, Berryville, Opequan Creek, Cloud Mountain, Fisher's Hill and Cedar Creek. At the battle of South Mountain he captured a Confederate captain and four men, whom he brought into camp. His bravery on this occasion won for him a medal, the gift of the United States Government.

At the close of the war Mr. Inscho returned to Chatham, where for sixteen years he engaged in the milling business, owning both a gristmill and a sawmill. In 1883 he came to Newark and conducted a profitable grocery. On January 25, 1879, he married Miss Marie, daughter of James McKimsey of Chatham.

Politically Mr. Inscho was a Republican and served in the past as trustee of Newark township. He was a member of Lemer Post, G. A. R., of which he is Past Commander. He was also enrolled with the Union Veteran League and Acme Lodge No. 524, A. F. and A. M. With his wife he was a member of the Methodist Episcopal church, and was a class-leader and superintendent of the Sunday school.

IN VIEW OF DOZEN LITTLE TOT'S BODY SEVERED BY TRAIN

Marion, Ind., Nov. 12.—With in sight of a dozen persons the two year old daughter of Earl Irwin, a chimney maker, was killed Monday by a Clover Leaf train. The child had wandered from its home near by and walked in front of the train when it was but a few feet away. A number of persons made an effort to reach the babe, but the train beat them in the race, cutting the tiny body in two. The mother ran to the scene and was prostrated with grief.

ROW AT DANCE CAUSES DEATH OF YOUNG MAN

Cambridge, Nov. 12.—The breaking up of a Hungarian dance at Trail Run, a mining camp eight miles south of Cambridge, caused the death of a prominent Byessville citizen and serious injuries to a score more late Saturday night. The dancers had started a row and missiles were flying thick when John McLaughlin and his son, Manly, rode along and received a full volley. The younger McLaughlin pulled a gun and shot into the crowd several times. Following at some distance was an Englishman, Charles Caldwell of Byessville, who was returning from a visit with his sweetheart. A shot took effect in his head, causing instant death. Another man was shot in the leg and a number were seriously injured by flying stones.

The McLaughlins gave themselves up to the Byessville authorities Sunday.

FEARING MOTHER'S DEATH REVEALS SECRET WEDDING.

MRS. HARRY CLAYTON HOWE

New York, Nov. 12.—Cards sent possible for them to wait for the announcement of the marriage of Miss Laura Adelaide Meyer, daughter of Mr. and Mrs. Charles Henry Meyer, of No. 21 Hart street, and Mr. Harry Clayton Howe, come as a great surprise to the many friends of the young couple.

One of the chief social events of the spring in the Bedford section of the wedding of the young bride, Miss Elsie Meyer, who was married to Mr. Andrew R. Biltz of New York, took place at the home of the bride's mother, Mrs. Meyer, very seriously ill, and fearing that her mother might die, the young bride felt that she could not keep the secret of the marriage from her any longer.

As the case of the young couple was their only objection to the match, the bride having not yet passed her 21st birthday, Mr. and Mrs. Meyer and Mr. T. L. Cuyler Howe, father of the bridegroom, have forgiven them, and for a time the young couple will remain with Mrs. Howe's parents.

To her and her second husband twelve children were born, all of whom are living. Having recently heard that Mrs. Sarah Waliz was separated from her husband, Pittman with the true Enoch Arden constancy returned to his wife and his son and they were married today. Pittman agreed to support his wife's twelve children and his own son.

BODY WAS LOST FUNERAL DELAYED

Bellefontaine, O., Nov. 12.—The body of Mrs. Frank Lautenschlager of Dola, Ohio, was lost in Chicago while being brought home and the funeral had to be postponed for 48 hours.

Mr. and Mrs. Lautenschlager had been in the West for her health and when she died the husband started home with the remains.

He arranged for the transfer at Chicago and when he arrived at Dola and went to the baggage car to assist in lifting out the coffin he was horrified to learn that there was no such baggage aboard.

Inquiry at Chicago resulted in locating the missing body after the trying ordeal the husband went through.

The lid will be clamped on in Cambridge and not even milk will be sold on the streets on Sunday.

DRAWN VEIL NOT LIFTED

During Testimony Showing That Phillips Feared His Wife

WHO HAD THREATENED HIM

Startling Recital of a Brother of Murdered Cleveland Coal Man

At Preliminary Hearing Which Resulted in the Acquittal of the Woman.

Cleveland, Nov. 12.—Justice Brown today discharged from custody Mrs. Charlotte Phillips, charged with the murder of her husband. The discharge was on motion of the woman's attorney, who argued that the state had not made the case strong enough to warrant holding Mrs. Phillips to the grand jury. The prosecuting attorney joined in the request and the justice freed the woman. The case now seems destined to remain a mystery, as the state has not even a suspicion as to the identity of the murderer.

Cleveland, Nov. 12.—That John J. Phillips, the rich coal dealer who met a mysterious death by a bullet wound in his East Cleveland home several months ago, lived in constant fear that his wife would kill him was told yesterday in Justice Brown's court, where Mrs. Phillips had a preliminary hearing on the charge of killing her husband. This evidence came at the close of the hearing, and was most unexpected.

Clyde Phillips, a brother of the dead man, said that about a month before the death of Phillips he (Clyde) and his wife went to call at the Phillips home. Mr. Phillips came home in his automobile. He went to the stable. Some time afterward Clyde went to the barn and found all the doors locked. Breaking in through a window, he found his brother John sleeping in the auto. He asked him why he did not go to the house. Phillips replied:

"I am afraid of my wife. She has threatened to kill me."

Clyde Phillips also told of conversations with his brother, in which John told of his wife having made attacks on him on several occasions. During this recital Mrs. Phillips never raised her veil.

When Phillips was slain the first report said burglars killed him. Then it was given out that he killed himself. Then indications threw suspicion upon Mrs. Phillips. When the woman refused to tell what occurred from the time Phillips was shot about 12:30 until 5 a. m., and attempts were made to keep much-desired facts secret, the officers issued a warrant for the wife.

Ethel Phillips, aged 11, adopted daughter of the Phillipses testified that from 12:30 a. m. when Phillips was discovered wounded by a pistol bullet in his neck on the stair landing, until 3:45 a. m. when the doctors arrived, no word was spoken as to how he was wounded.

Dr. Charles L. Richardson testified he arrived at the Phillips home and found Phillips in bed. He assisted Phillips to the bathroom. While in the bathroom Phillips remarked:

"I am more worried about Mrs. Phillips than I am about myself." Dr. Richardson also testified that Phillips twice requested to be allowed to speak to Mrs. Phillips privately. Each time he left the room Mrs. Phillips remained with her husband.

Richardson testified that he went upstairs to Mr. Phillips' room and found him in bed.

The husband and wife described the shooting. Mrs. Phillips talked rather incoherently, but Phillips was calm. From what both said I learned that Phillips had gone downstairs after a drink, and after reaching the landing on the return trip had been shot. "Do you know the man who did the shooting?" I asked of Phillips. Phillips replied that he did not.

INSANITY

CAUSED ALBERT YOST TO STEAL
HORSES AND SO ADJUDGED
IT WAS.

Young Man Will be Taken to State
Hospital—Celebrated Will Case
on Trial.

Albert Yost, the 18 year old son of
Mrs. Julius Yost, who live
on one mile west of Buckeye Lake
was arrested a few days ago on the
charge of stealing a horse, runabout
buggy, robe and harness, from Mr.
David Birch, of near Hebron, and
driving the horse to the home of Mr.
George Foster, near Thornville, al-
though he made no attempt to dis-
pose of the stolen property. Young
Yost, who is an exceedingly fine look-
ing young man, was arrested and had
his preliminary hearing before Squire
Turner, in Hebron, last Saturday, and
was bound over to the Common Pleas
court in the sum of \$1000. He was
brought to Newark and placed in the
county jail. At the preliminary hear-
ing no defense was made, but the
matter of mental integrity was in-
vestigated by Dr. H. J. Davis, which led
to a hearing in lunacy, granted by
Probate Judge Brister in his office on
Tuesday, November 12, with Dr. Hen-
ry Day, Dr. D. M. Smith and Dr. J.
T. Harbottle as the inquiring board.

At the examination it developed
that the young man was a subject of
paranoia, a form of insanity, and in
this the examining board was unani-
mous in its finding, and Probate
Judge Brister adjudged him insane.

Young Yost was taken to the State
Hospital Tuesday afternoon for treat-
ment. The young man has a mania
for stealing horses, and evidently sees
no wrong in doing so. On one occa-
sion he hired a horse and buggy from
a livery man in Pleasantville, which
he drove to death. Afterwards he
served a term of 18 months in the Re-
formatory at Mansfield for taking a
horse at Logan, although he never
tried to dispose of it.

Trying to Beat Will.

The case of Isaac Mazelin, James
N. Mazelin, Dennis F. Mazelin and
Theodore Mazelin vs. Tilden Mazelin,
et al, is on trial to the court and jury.
They say that in August, 1905, Fran-
cis N. Mazelin, now deceased, signed
a paper writing purporting to be his
last will and testament. That it was
admitted to probate and S. J. Peters
was appointed executor thereof, and
is now acting in that capacity. Plain-
tiffs say that the said paper is not
the last will and testament of said
deceased because it was procured
to be made by persuasion and undue
influence exercised over the deceased.
That his mind became poisoned and
set against plaintiffs and he was in-
duced to discriminate against the
plaintiffs in the making of his will.

The defendants deny plaintiffs'
claims. About 60 witnesses have been
subpoenaed and are in attendance be-
fore the court. Eugene Moore, Black,
Kibler & Montgomery; Smythe &
Smythe, Fulton & Fulton.

In the suit of R. L. Patton vs. Mary
Dumbauld et al, for the partition of
certain real estate in this county, the
court, by agreement, appointed the
following as commissioners: Arthur
Weth, Henry Longwell and M. L.
Brown, McDonald.

Bound Over to Court.

In the case of the State of Ohio vs.
Boglar Istrum, charged with making
a criminal assault on Katchie Ker-
oly, a married woman, aged 45 years,
the defendant was bound over to the
Common Pleas court in the sum of
\$200. He furnished the necessary
bond.

Granted a Divorce.

The case of Samantha Evans vs.
Thomas Evans, suit for divorce, was
tried before Probate Judge Brister
and James R. Fitzgibbon, who repre-
sented the defendant, and who filed
an answer and withdrew it, made no
contest at the hearing. The plaintiff
was a widow, 48 years old, who mar-
ried the defendant, who was 32 years
old, on the 25th of February, 1906.
At the time the plaintiff married Evans
she had considerable property, and
she alleged extreme cruelty and
gross neglect on the part of the de-
fendant, claiming that he lay down
after their marriage, refused to work
and made her support him. All the
charges were proven and Mrs. Evans
was given a decree as prayed for.

REWARD STANDS

But as Yet It Has Not Been a Means
of Getting Any Information of
Spangler's Murder.

The \$500 offered by the commis-
sioners for the arrest of the murderer of
Joe Spangler has not been claimed.

Although the reward has been post-
ed for several days now, and in spite
of the fact that the money would pay
a nice lot of coal and other neces-
saries for the winter months, no one
has claimed it and no one has even
dish out the tiniest bit of informa-
tion on the subject.

While the officials did not expect
any immediate response after the
offer was made, yet they thought that
by this time something might have
been accomplished. Yet there are peo-
ple who may not have heard of the
offer and who may be in the pos-
session of some facts that will lead
to the arrest and conviction of the
man who committed one of the most
dastardly crimes in the criminal an-
nals of this county.

They have not given up hope yet
and the reward will still stand in the
hopes that absolute necessity will
force some person or persons to di-
vide any information they may have
on the subject.

WHY SO WEAK?

Kidney Troubles May be Sapping
Your Life Away—Newark Peo-
ple Have Learned This Fact.

When a healthy man or woman be-
gins to run down without apparent
cause, becomes weak, languid, de-
pressed, suffers backache, headache,
dizzy spells and urinary disorders,
look to the kidneys for the cause of
it all. Keep the kidneys well and
they will keep you well. Doan's Kid-
ney Pills cure sick kidneys and keep
them well. Here is a Newark testi-
mony to prove it.

Wesley Rowland, express driver,
living on Washington street, near
Mill street, East Newark, O., says:
"Many a time my back pained me
so and was so weak that I could not
load my wagon. If I stooped to pick
up anything it was all I could do to
straighten up. My back pained me
so at night that I could not sleep.
I would wake up again with terrible
pain through the back and shoulders
as if I were in a cramp. I tried lin-
iments and various remedies but
found nothing that helped me until
I got Doan's Kidney Pills at Cray-
ton's drug store. Three boxes were
all that were required to cure me
and the cure has been permanent.
That was two years ago and I have
had no trouble of the kind since."

Remember the name—Doan's—

"The Flaming Arrow," will appear
at the Auditorium on Tuesday even-
ing, November 19. It is said to pos-
sess the true western melodramatic
flavor depending for its success upon
its brisk action, exciting climaxes and
stage mounting, together with an
adroitness of dramatic conception
and an excellent plot. An exciting
four horse race is the feature of the
first act. Interest is increased in the
second act by a realistic council fire
pow-wow and ghost dance by the in-
dians of the company. The third act
contains a number of humorous spe-
cialties including a genuine Indian
brass band. The company is said to
be one of the largest that will appear
at this season, numbering some forty
people. Much care has been given
the piece and an excellent mounting
above the Carter standard is prom-
ised.

UPROARIOUSLY FUNNY.

The Lunatic and the Lady, which
is announced as the attraction at the
Auditorium on Friday, November 15,
is an uproariously funny musical
comedy. It is of the attenuated ma-
terial that permits all sorts of lib-
erties and yet holds in a measure to
the thread of a plot which hangs the
whole before an expectant audience's
view. Melville H. Raymond has
staged this piece in lively fashion and
he enlists the services of a well train-
ed chorus often to set these animated
effects. Individually the company is
above the average and there is one
member who is a tower of strength to
the cast and that is Frank Christie,
who is known from coast to coast as
a fun maker. Christie is droll and
funny without being obtrusively in
evidence, and has a peculiar method
that wins laughs spontaneously. Miss
Jeanette Mozar who plays "The Lady"
is considered by many to be the hand-
somest and best dressed soubrette on
the stage.

Faithful to his trust—the promo-
ter.

About an hour afterwards another resident of the same neighborhood heard his dog barking and upon going out to investigate was just in time to see a woman dressed in black with a black fascinator over her head, jump a back fence and cut across the back yards. A sharp look-out will be kept for her and if captured she may have a chance to explain her actions to his honor, the mayor.

A Poor Start.

There was a gloom on Mr. Fowler's countenance which nothing save the lack of some desired article of food had ever been known to produce.

"What's the matter, Ezra?" queried Mr. Fowler's nearest neighbor, after a glance at his lugubrious face. "Flap-jacks given out over at your house?"

"Worse'n that!" groaned the distressed one. "You know 'twasn't apple year, and we've got so low already 'n' wife says we can't have any more apple pie for breakfast."

"Can't you make out if you have it noon an' night?" asked the neighbor, without a smile.

"Can, because I've got to," said Mr. Fowler testily. "But I tell you it upsets me, starting in the day wrong like that!"—Youth's Companion.

HARD WINTER COMING.

The coming winter will be a hard one for the housewife with a limited pocketbook, for in addition to the average increase in prices of all commodities of over 50 per cent there is a further advance in the cities over last year of nearly 30 per cent in food stuffs. Under such extraordinary conditions wages and incomes should increase but the general trend is for lower wages, or at least to stand still for the time being. Yet the Republican politicians are snouting that every one is prosperous and the sacred tariff which protects the trusts must be preserved.

A SWEET QUESTION.

What will the next Congress do for and with sugar? asks the Washington Post. Those who know Uncle Joe and Vice President Fairbanks, assume that Congress will pay for it, and mix it with mint, lemon, ice and a little Old Crow, as usual.

Nature Fakes.

After a careful and impartial consideration of all the evidence bearing on the subject, says the Indianapolis News, the investigating committee reports that, notwithstanding their long life and apparent respectability, the following are undoubtedly nature fakes:

The bull in the china shop.
The wolf at the door.
The fly in the ointment.
The dog in the manger.
The fish out of water.
The bee in the bonnet.
The flea in the ear.
The rat that was smelted.
Pigs in clover.
Horse and horse.
Time flies.
The Welsh rabbit.
The man on a lark.

Our Naval Strength.

In the latest issue of the Naval Annual, published by J. Griffin & Co., Portsmouth, England, the editor, Mr. T. A. Brassey, declares that the most important change in the relative strength of navies during the year is the fact that the United States has become the second naval power of the world. He bases this classification mainly on the number and character of the battleships built and building by each country, and after establishing their absolute war value, as expressed in the terms of guns, speed, protection, habitability and hardness, he fixes the precedence in the sea hierarchy as follows: First, Great Britain by a long lead; second, United States; third, Germany; fourth, France; fifth, Japan; sixth, Russia, and seventh, Italy.

Clocks and Music.

Camille Saint-Saens, the French composer, boasts that, like Mozart, he chose his relatives with the greatest discretion. His mother was an artist, his aunt an accomplished musician. The child showed very early an extraordinary susceptibility to musical sounds, and he delights to tell how, when he was a tot of three or four, his great-aunt would get all the clocks in the house and set them striking, making him tell her the difference in the vibrations and imitate them with his voice. To this early training he attributes much of his remarkable memory and faithful ear.

Th. people who come up to our expectations are those we measure with the golden rule.

AN ILLUMINATING REPORT.

National Civic Federation Commission Shows the Impracticability of Some Municipal Ownership Theories.

An attempt has been made to belittle the full committee report of the National Civic Federation because it doesn't settle offhand the entire question of municipal ownership. Only those whose knowledge of the subject and of the personnel of the commission is most superficial expected any other result than the one which has been attained and which is, these critics to the contrary notwithstanding, of the greatest importance to those who are striving to solve this economic question on its merits rather than to get a snap decision favorable to their particular point of view. When it is considered that the eighteen men who united in this report represent the most divergent views on the question as a whole it becomes evident that any points upon which they concur after their thorough investigation of the subject must be considered as settled beyond ordinary question. It may not be amiss, therefore, to point out some of the more important of these conclusions with their bearings on the subject as ordinarily presented.

The American press, daily, weekly and monthly, has been filled with accounts of the successful operation of public utilities in Great Britain, and the writers have deduced therefrom the conclusion that similar results are readily obtainable in this country. This conclusion is entirely ruled out by the commission's report, which, while not committing itself on the question of the success or failure of British operation, asserts that the conditions of municipal government in the two countries are so different that it is not safe to assume that any success which may have been attained in England would be likely to follow in the United States. Going further along the same line, the report indicates that the conditions, both physical and political, differ so widely in our own cities that comparisons between them are likely to lead investigators astray unless all points of difference are given their full value. Heretofore the simple argument has been: "Smithtown has made a success of its municipal plant. Why should not Jonesville?" This naive form of reasoning has won for municipal ownership the unthinking support of thousands whose mental training has not accustomed them to look beneath the surface. The report would be well worth while if it succeeded in convincing any considerable part of such people that the subject is far more complex than they had supposed.

Again, we are assured by the commission that prerequisites of successful municipal operation are an absolute divorce of politics from the management of the plants and the adoption of thoroughgoing business methods, a millennial condition of which there is no immediate prospect for most of our cities. It has indeed been held that municipal reform would result immediately from an increase of municipal responsibility. The commission is unanimous in stating its belief that such a result is not to be hoped for, and its conclusion is borne out by the fact that at present the character of the officials of our various cities bears no apparent relation to the magnitude of municipal undertakings, except perhaps that as a general rule it may be said that the larger the field of operations the stronger is the grip of the boss and the greater the amount of graft. The commission sets aside this particular political theory with the statement, "We are unable to recommend municipal ownership as a political panacea." In other words, it concurs in the teachings of the parable of the talents that unfaithfulness in a few things doesn't indicate a likelihood of faithfulness in more important things.

Taken as a whole, the message of the commission to our cities is: "Go slowly. Don't be swept off your feet by demagogues or visionaries, for the risks are too serious to be lightly undertaken without full investigation."

ONE PET THEORY DOWNED.

Interest in Civic Matters Not Increased by Municipal Ownership.

Advocates of municipal ownership tell us that the ownership and management of public utilities by the municipality is invariably accompanied by greatly increased interest in municipal affairs by the rate payers. As has been pointed out in these columns on many occasions, this is one of the pet theories which, as a theory, is indisputable, but which in actual practice has proved true after time most disappointing.

Another instance has just come to hand. Edmonton is extensively advertised as the banner municipal ownership town of the Canadian west. Its civic officials have acquired much dexterity in throwing bouquets at one another and even at themselves. According to theory, public interest in municipal affairs in that town should always be at a white heat. But it is not.

The other day the 2,000 rate payers on the roll were invited to express their opinion upon bylaws adopted by the council involving the expenditure of the large sum, for Edmonton, of \$250,000 for various municipal improvements. Of the 2,000 qualified voters 133 only, or one out of every twelve, found their way to the polls.—Editorial in Montreal Gazette.

The city council of Towanda, Pa., some months since appointed a committee to investigate the subject of municipal ownership with a view to the city's installing its own electric light plant. While the report of the committee has not been made public, its import can be judged from the fact that the contract for lights was promptly renewed.

AMERICAN AS A GOD.

Why South Africans Worship Harry Pringle Ford.

REWARD FOR PHILANTHROPY.

Photograph of Philadelphian Who Befriended Zulu Boy Is Placed on Shrine of Temple in Zululand—Natives Ordered to Worship It.

Many Americans admire titles, but few have enjoyed the distinction of being worshipped as a deity, says the Philadelphia Public Ledger. Harry Pringle Ford, an elder in the Holland Memorial Presbyterian church of Philadelphia, is probably the only exception, for Mr. Ford, or, rather, his photograph, is being worshipped today by thousands of stalwart ebony skinned natives in the mountains of the Matabel country, in South Africa, as "an American god."

Philanthropy won for the Presbyterian elder this remarkable distinction. Fourteen years ago he befriended a Zulu boy who had been persuaded to come to America to obtain an education, but who was used as an "attraction" on the Midway Plaisance of the World's fair at Chicago.

Later the boy, Hosana Coronto by name, was abandoned by his manager, and it was then that Mr. Ford rescued him from wretchedness. The friendless boy was the son of Coronto, a despot monarch in the Zulu country, whose wives numbered more than twenty and whose authority had no restrictions. Men die in Zululand at a nod of this potentate's head.

When Coronto was sent back to his native land, with his expenses paid by the generosity of American friends, whose sympathies Mr. Ford enlisted, he carried with him a photograph of his benefactor. What happened to that picture in Zululand was told a few days ago by Coronto himself when he visited the headquarters of the board of publication and Sabbath school work in the Witherspoon building at Philadelphia. Mr. Ford, who is connected with the board, was sitting at his desk when suddenly two burly black arms seized him around the body and for the space of ten seconds the breath was almost squeezed out of him. Looking up, he beheld his protégé, who had grown to manhood and the proportions of a giant. The heartiest greeting followed, after which Coronto said:

"Do you remember that picture you gave me? Well, my father, the king, tell in love with it. Of course it was your goodness to his son that impressed him. He has put it on a throne in our largest hut, which my people use as a temple, and has commanded his subjects to worship it. He told them that it was an American god who had saved his son's life. And everybody worships it. No one dares to disobey my father, for he would instantly kill him."

Mr. Ford was duly impressed and asked Coronto how he had been spending his time in Zululand. The young chieftain replied that during the Boer war he had acted as guide and interpreter for English generals and since the cessation of hostilities had endeavored to teach his people something of American manners, for in a Zulu family all eat out of one pot, which is never washed, and use their fingers to handle the food. Moreover, men, women and children sleep in one room.

"I tried to teach them manners," said Coronto, "and started a school for the purpose. But the work was slow. The girls insisted on attending without clothing in warm weather. However, they learned quickly, and I soon found that they knew as much as the teacher. So I have come to America to obtain an education, after which I will go back to Zululand and teach my people."

Coronto is now in the south, where he expects to enter one of the negro colleges.

Emperor Who Must Die Standing.

The emperor of Austria during his illness has insisted on transacting state business as usual, says Tit-Bits. As soon as he left the nursery he began a course of training to fit himself for the high position he was to fill. At sixteen he was an accomplished linguist and a scientific expert of no mean degree. He could ride and hunt with the tireless energy of a hardy sportsman, and his studies in literature and jurisprudence were conducted under the most celebrated scholars of continental Europe. That such a course of training did not react upon his health is doubtless due to his remarkable memory, which even now is said to enable him to recall the face of the humblest of his subjects, no matter how long the lapse of time. It is a tradition of the Austrian royal house that no emperor must die lying down. He must stand up to receive the last dread messenger.

Fly Killers For Public Printer.

Public Printer Stillings has appointed Garfield Linkins and W. J. Johnson fly killers in his department, says a Washington special to the New York World. They have begun their labors in Mr. Stillings' own palatial private office. Mr. Stillings requires a daily report of the number of flies killed, and the salaries of the killers will depend upon the results.

Every Hearse Its Own Band.

A Berlin (Germany) woman has invented a phonograph for a funeral machine. It is attached to a hearse and can be started by the driver as the procession starts, the effect being that of a full band playing the dead march. The invention has not yet been tested.

Motion of Planets and Satellites.

All the planets travel the same way round. This is true not only of the eight primary planets, but of the asteroids. Again, all the secondary planets or satellites travel the same way round, this direction of revolution being the same as that in which the planets revolve around the sun, except the satellites of Uranus, which, however, can hardly be said to have any direction of motion with reference to the general level in which the planetary system currents, for they travel in planes nearly square to that level. Lastly, as respects direction of motion, all the planets whose rotation has been observed, including our earth and moon and the sun also, rotate on the same axis in the same direction. It must be understood that this direction is one and the same for all these motions—the revolutions of the planets around the sun, of the satellites around the planets and of the planets on their axes. It seems natural to infer that the uniformity is the result of some general condition affecting the whole scheme from the beginning.—Richard A. Proctor.

The company has orders aggregating \$10,000, and \$58,000 is due the concern from various creditors. The trouble is due to the unavailability of assets. About 400 people are employed by the company and the receiver expects to continue operations.

Granville, Nov. 12.—One of the most impressive sights seen in Granville for a long time was on last Sunday when Dr. Baldwin, pastor of the Baptist church, escorted Dr. William Ashmore to the pulpit—Dr. Ashmore, that grand old man, venerated by students and alumni alike, as being the oldest living alumnus of Denison University. Seventy-five years ago he came to Granville and entered the Granville Literary and Theological Institute when it was but entering its second year. And now, after his life of usefulness and national renown, he comes back to spend a few months in Granville. Surely he is a most honored visitor. The Doctor is a recently returned missionary from China, and has been making his home in Toledo.

Word has been received here that Dr. Francis W. Shephardson Denison '82, has resigned his position of Dean of the Senior colleges in the University of Chicago, in order to give more of his time to editorial writing on the staff of the Chicago Tribune. He however retains his teaching position in the university.

How to Make Your Own Cough Medicine

More effective than any of the patent nostrums for curing coughs or colds is a simple remedy which can be made at home in five minutes at very small expense. Use

Granulated Sugar Syrup 12 1/2 oz.
Pinex 2 1/2 oz.

Take three or four of a pound of granulated sugar, add water, heat and stir until you have a thick syrup. The drugstore will sell you either Pinex (2 1/2 oz.) or Pinex (1 1/2 oz.) in a clear glass bottle and it will keep well corked and sealed last the family for many months.

Pinex, as you probably know, is the most concentrated form of Norway White Pine Extract.

The best results from this prescription are to be had only by using the pure Pinex. All druggists have it or can get it easily on request.

Rheumatism has for years been regarded as an exceedingly painful disease but it has only been discovered within the last few years that it is this terrible trouble that is either directly or indirectly causing thousands of deaths yearly throughout our country. If Uric Acid is allowed to stay in the system sudden death can scarcely be averted, but if any sufferer will go at once to W. A. NATIONAL FLAG

SHOULD BE DISPLAYED IN ALL SCHOOL ROOMS, IT IS URGED.

Letter Sent Out to Ohio Boards of Education Asking That Such Steps be Taken.

T. T. Smith, patriotic instructor of the department of Ohio, Grand Army of the Republic, has sent out 500 circular letters to school boards in Ohio, in which he asks the members of the boards to use their influence to have the national flag displayed in all school rooms under their control.

Appended is a copy of the letter:

To the Honorable Board of Education: Gentlemen—Fully appreciating the great principles represented in the American flag, and thoroughly understanding the enormous cost in life and treasure for its perpetuity; believing it to be the most potent factor in the educating the rising generations along true patriotic lines, the Grand Army of the Republic feels that its presence in every school room in Ohio would be of great benefit in sowing the seeds of patriotism in the hearts and lives of the pupils, especially those of foreign birth, which would redound to the glory of our great country.

The flag on the building is all right, but we feel that the best means to promote the spirit of patriotism, is to place a flag of fair size in every school room, with frequent appropriate services in its honor.

We therefore respectfully petition your honorable body to take such steps as will cause the flag to be displayed, as above stated, in every school room under your jurisdiction. Hoping you will give this matter prompt attention, I am,

T. T. SMITH,
Department Patriotic Instructor G. A. R. of Ohio, 289 South Ohio avenue, Columbus.

David M. Keller, secretary of the Board of Education received such a letter which will be read next Monday night at the board meeting. This question is already in vogue in the Newark schools, the flags being in each of the rooms, having been donated several years ago by the Powells-Miller company.

A CORSET STAY

SAVED HER LIFE

Marion, O., Nov. 12.—A corset stay saved the life of Mrs. Filbert Boice, Monday afternoon. A shot was fired by her husband, whom she recently sued for divorce.

The bullet struck her corset, glancing off. A few seconds before, Boice had fired another shot, but a sister of Mrs. Boice hit his arm the bullet going wild.

Boice and his wife had met to divide the belongings. Boice became enraged when neighbor women came in to look on and pulled the revolver. He is now in jail.

Merited Ovation

Given Mrs. Patrick Campbell and Daughter Upon Their Appearance in New York.

New York, Nov. 12.—The brilliant feature of one of the busiest weeks of the season was the re-appearance last night in America of Mrs. Patrick Campbell, the noted English star in "The Second Mrs. Tanqueray." The

occasion also marked the American debut of Mrs. Campbell's daughter, Miss Stella Patrick Campbell.

Both were given a merited ovation. Another English importation presented last night was the London comic opera success "Tom Jones." The production is of the old school of comic opera, being stronger in its musical numbers than as a mirth provoker.

A Narrow Escape.

G. W. Cloyd, a merchant of Plunk, Mo., had a narrow escape four years ago, when he ran a jimson bur into his thumb. He says: "The doctor wanted to amputate it, but I would not consent. I bought a box of Bucklen's Arnica Salve and that cured the dangerous wound." 25c. at F. D. Hall's drug store.

Sensitive Earthquake Recorder.

The ordinary seismograph or earthquake recorder registers the motion of the earth under a "stationary" pendulum of 100 or 200 pounds. A new instrument by Dr. Wiechert, made at Göttingen, has a suspended pendulum weighing nearly seventeen tons, and a series of levers causes its indicator to magnify the earth motion 2,200 times. So sensitive is the apparatus that it showed tremors due to a gas engine located a mile and a half away.

Tonsiline Prevents Quinsy
The germs which cause Quinsy reach the deeper seated tissues by absorption through the tonsils, causing the horribly painful inflammation which results in suppuration. Quinsy is simply a development of Sore Throat to which some people are peculiarly subject. With them, a tedious or neglected Sore Throat terminates in Quinsy. With them, a quickly cured Sore Throat means Quinsy avoided and nothing cures Sore Throat as quickly and surely as TONSILINE.

Many such letters as below prove TONSILINE's value in preventing Quinsy. Gentlemen—I have been subject to Quinsy for the last fifteen years and have simply had to suffer from ten days to two weeks with it at every attack, never having been able to find a preventive, until I commenced using TONSILINE. Up until a year ago I had had ten attacks of Quinsy, but have been able to avoid it twice since that time by the use of a 25 cent bottle of your remedy. Hoping that others similarly troubled will profit by my experience, and thanking you for what your TONSILINE has done for me, I remain, Yours very truly, E. T. KEENAN, Chief Clerk Auditor's Office, U. S. and C. P. C. and Ohio.

Sufferers from Quinsy should always have TONSILINE ready for instant use on first sign of Sore Throat. 25c and 50c—All druggists. The Tonsiline Co., Canton, Ohio.

DO NOT KNOW WHAT CAUSES SICKNESS

Modern People Have Many Names for Same Diseases, According to New Belief.

Does human health depend on one organ alone? This question is becoming widely discussed since L. T. Cooper first advanced his theory that the stomach is the true seat of life and all health dependent upon it.

Mr. Cooper, who has met with remarkable success in the sale of his new medicine, believes that the stomach is responsible for most sickness, and that this organ is weak in the present generation. While discussing this theory recently, he said: "I am asked time and again to tell why my medicine has made such a record wherever I have introduced it. My answer always is, 'because it restores the stomach to a normal condition.' No one will deny that today there are more half-sick men and women than ever before. Nothing critical seems to be the matter with them. They are just half-sick most of the time. They don't know really what is the matter with them. I have talked with thousands during the past two years, and few knew indeed what their trouble was. One said nervousness, another said kidney trouble, another liver complaint, some constipation, or heart trouble, or lung trouble. Many had treated, as they called it, for most of these diseases at different times. A very common complaint is 'all run down,' or 'tired all the time,' or 'no appetite.'"

"I know positively that every bit of this chronic ill health is caused by stomach trouble, and nothing else. My New Discovery puts the stomach in sound condition in about six weeks. Mighty few people can be sick with a

sound digestion. That is why my medicine is selling at such a tremendous rate. I have convinced many thousands of people that these things are so, and the number is growing by leaps and bounds."

Among more recent converts to Mr. Cooper's beliefs is Mr. Edgar L. Hinds, living at 8 Tappan Street, Everett, Mass. Mr. Hinds has this to say on the subject:

"I have suffered with stomach trouble for eight years. I was not sick enough to be in bed, but just felt all the time. My greatest trouble was that I always felt tired, would get up in the morning feeling as tired as when I went to bed."

"I had a very irregular appetite, and was troubled with dizzy spells. If I stood for any length of time, I would have a dull pain in the lower part of my back. I was nervous and felt all the time as though something terrible was going to happen. I tried many kinds of medicine, but nothing ever helped me."

"I had about given up all hope of ever being in good health again, when I heard so much of Cooper and decided to try his medicine. I took one bottle of his New Discovery and was greatly surprised at the result. I gained 12 pounds in a few weeks. I am now eating anything I wish, and feel like a new man. I cheerfully recommend this medicine to all sufferers from stomach trouble."

"It is worth anyone's time, who is not enjoying good health, to learn of Mr. Cooper's wonderful preparations. We are selling them in large quantities. City Drug Store."

Granted by Council
Monday Night

LABOR ORDINANCE WAS PASSED
AGAINST LEGAL ADVICE OF
SOLICITOR BOLTON.

After Acrimonious Discussion in
Which It Was Called Political
Scheme.

Council met in adjourned regular session Monday evening having adjourned over from the previous Monday on account of there not being a quorum present at that time.

A number of important ordinances were passed, several street paving resolutions were introduced a petition was received and filed and a lively discussion was precipitated, when Councilman Joseph Moser charged that the ordinance regulating the hours and compensation of public labor was a political scheme fostered by certain city officials for political effect. Mr. Moser charged that a resolution pertaining to the ordinance in question was introduced several weeks before election and that it was the intention of certain officials to use it in furthering their chances of re-election. This was denied by the members, who claimed that they acted in good faith. Councilman Hughes opposed the ordinance stating that he did so on the grounds that it was a matter which came entirely within the jurisdiction of the Board of Public Service, and that they should regulate the hours and compensation of their own employees.

Solicitor Frank Bolton was asked as to his opinion in the matter and replied by stating that State Attorney Wade Ellis had ruled that under the new code all Boards of Public Service had entire jurisdiction in the matter. This apparently made no difference with the council as they passed the ordinance, all members voting aye with the exception of Mr. Hughes, who opposed it on the grounds stated above. All members were present Monday evening and after Clerk Munch called the roll the minutes of the last meeting were read and approved.

Mayor McCleary's report for the month of October was received and filed. The report showed that the county fines amounted to \$80, the costs collected for Chief of Police in same was \$26.30. City licenses collected amounted to \$54, city fines \$121 and costs \$55, making a total collected by his honor of \$336.30.

A petition was next read from citizens residing on Eleventh street praying the council to improve the street between Granville and Hoover by graveling same. The petition recited the fact that the road in bad weather was almost impassable. It was a matter over which council had no jurisdiction and Clerk Munch was instructed to turn over the petition to the Board of Public Service.

An ordinance was next introduced by Councilman Beadle which authorized council to fix the number of members and compensation of the city fire department. This ordinance slightly increased the salaries of all members of the city fire department with the exception of Chief Bausch. It was probably an oversight of those who drew the ordinance and will undoubtedly be rectified at the next meeting. The ordinance as passed provides that the chief shall receive the sum of \$100 per month; the assistant chief \$90, a raise of \$5; three captains who shall receive \$85, a raise of \$10; five drivers who shall receive \$75 per month for the first year and \$80 thereafter, a raise of \$10, and twelve firemen who shall receive \$70 the first year and \$75 thereafter, a raise of \$10. The ordinance was passed under a suspension of the rules.

Another ordinance introduced by Mr. Beadle was given its first reading and under a suspension of the rules was put upon its final passage and passed. It provides for the construction of a street crossing under the tracks of the Pennsylvania and Baltimore and Ohio railways south of Wilson street and west of Raccoon creek. The Board of Public Service was authorized to enter into a contract with the railways for the construction of the subway the estimated cost of which is \$12,000, the city's share of which would be \$6,000.

An ordinance introduced by Mr. Beadle was passed under a suspension of the rules, authorizing the transfer of \$150 from the contingent fund of the Board of Public Service to four M G of said fund. This money will be used for street cleaning purposes.

ORPHANS

OF SOLDIERS WHO DIED IN THE
SPANISH AMERICAN
WAR

Now in Xenia Home Will be Remembered
Next Christmas—Newark
Comrades Will Aid.

When Christmas rolls around this year the United Spanish War Veterans of the state will remember the orphans of their veterans with Christmas gifts. Many Newark members of the organization have received a communication from James A. Freed, department commander, with headquarters in Youngstown. The letter follows:

"The Xenia Soldiers' and Sailors' Home contains about 750 children between the ages of 4 and 16 about 80 being of the war with Spain. This order has directed me to ask for contributions to give these children Christmas presents. A committee has been appointed and it will take about \$250 to carry out their plans and make every child feel that it has been remembered.

"While the comrades of the order are giving, I feel that there are many comrades not closely identified with the order who would be willing to give something to further such an object. You know it is not our children who are in the home but the unfortunate children of some more unfortunate comrade.

"I enclose addressed envelope and will be pleased to have you help the committee. Any amount you may be pleased to give will be received with the thanks of the orphans. All contributions should be in before December first."
